LEADING PEOPLE AND INVESTING TO BUILD SUSTAINABLE COMMUNITIES

HARVARD BUSINESS SCHOOL CERTIFICATE PROGRAM

PROGRAM This four-day program provides the participant with the opportunity to view community investments in a broader context. While it is important to understand investment tools, strategies and products, it is equally important to understand how governance practices can shape the management of the investments with a longer term view toward building sustainable communities. The skill sets of entrepreneurial finance, negotiations, and change management complement effective governance of community investments. Participants learn using the HBS case study method. Interactive lectures and small study groups ensure lively, thought-provoking discussions and the sharing of innovative ideas.

PARTICIPANT SELECTION All applicants must complete the full application form. Preference will be given to Indigenous CAFM and CAPA designates. 35 participants will be selected from Senior Administrators, Executive Officers, Elected Leaders and Senior Managers working in Aboriginal communities and organizations on-reserve, off-reserve and in urban, rural and isolated settings across Canada. Participants should have post secondary experience. The selective nature of this program will help to ensure the highest engagement with Harvard faculty and an open and fruitful collaboration among peers. Please see application form for full details. *Must be an AFOA Canada member in good standing.
